IC 5 demo

IC 5 demo

- Once a shiny castle
- No new improvements
- Decay by time
- Cannot accomplish main goals.

Trying to get new users

- LinuxTag 2007, 2008, 2009
- Huge investment in time and money
- No results.
- Why?
 - Visitors didn't like the demo
 - They didn't like the code
 - BUT – They were amazed by the looks of Interchange production shops.

The background image shows a large, multi-story stone building with architectural details like arched windows, a central tower with a spire, and a lower section with a balcony. It appears to be a historical or institutional building, possibly a university or library.
